### Personal information

Hello, my name is Risto Anton Pääni. I love software engineering, marathons and exercising at the gym. available now.

## Motivational letter

**Risto Anton Päärni** considers himself a highly business-intuitive and perceptive individual with a genuine curiosity to lead and mentor his team and to work with other people. He loves building lasting relationships.

He is founder of Lifetime Certified Partners Consortium, and business owner of Lifetime Group which has 5 companies. He is product owner of dws3 SaaS platform project. The project is developed under aws and it includes CI/CD pipeline blue/green build. We use Serverless aws Lambda and EFS. Work is ongoing. Fundraising is ongoing.

Risto Anton is a highly motivated IT Professional who is capable of leading work as Agile Solutions Architect. He can motivate others while executing and leading company objectives. He has extensive experience with the Group's agile project portfolio management (lifetime.atlassian.net), open leadership and business process development, creating partnerships, lead the product lifecycle management, sales pipeline and its customer relationship and engagement management CX, analyzing and leading data driven based on market-based business intelligence.

With his team he can deliver solutions in a hybrid cloud computing architecture. He is author of several books including Consultant's handbook 2021 which is a managerial tool for new consultants onboarding.

**Risto's** greatest attributes are his enthusiasm, empathy to help others yet goal-oriented mindset, ability to connect with the right people when necessary and proven above expectations dedication of leading a project to its completion. He strives to surround himself with successful individuals that challenge him to learn, grow and deliver his best every day.

He works best in a complex multi-process environment bringing in his team's intuitive growth focused crystal-clear business vision followed by solid project prioritization and execution. His work role is friendly, realistic and action oriented with a laid-back attitude.
